ABOUT SERVELDER

Parents and adult children may live thousands of miles away from one another, separated by different cities, states, or even countries. Often, the demands and pressure of providing care can result in caregiver burnout—a state of physical, emotional, and mental exhaustion. It occurs when family caregivers do not get the help they need and are trying to do more than they are able to.

ServElder provides best in class services and various facilities which helps your elders to get the best care which they deserve. Our fully certified and experienced nurses and caregivers are available around the clock and provide medical and non medical care.

We deliver value to various bodies and one can choose from our numerous services,

Really, why us?

ServElder is one of the leading service providers in the field of Home Health Care for elderly people in particular. We understand that each individual is different and reacts to certain conditions in a different manner. Therefore, we have come up with home care plans that are totally personalised to cater to the needs of a particular individual. Each of our registered nurses, caregivers, medical social workers are professionally trained, certified and headed by a host of care managers who ensure that each person gets the best homecare there is. We provide services for not just medical assistance but for daily errands of the patient as and when required.

At ServElder, we understand what working professionals go through when they cannot take care of their parents or grandparents due to their work commitments. You obviously don't want to abandon the elderly at your home but cannot leave your work as well. This is where we come into play. Our experienced and well-trained professionals help your parents with anything they need. The caring mentality of each professional will help you get the assurance of your parents being in safe hands.

Our well-trained professionals provide care with utmost respect, integrity, patience and compassion to ensure that the elders feel comfortable throughout the process. We aim to spread more awareness about elder care with our work, giving you and your family an experience that you will never forget.

How we work

Nurses, nursing assistants and medical experts are provided through an aggregator platform. These nurses will be well trained and highly skilled in the area of medical care giving and physiotherapy.

Extensive quality-checks on medical procedures, interpersonal skills and hospitality. This will ensure that the services that we offer are of the finest quality and our customers are fully satisfied.

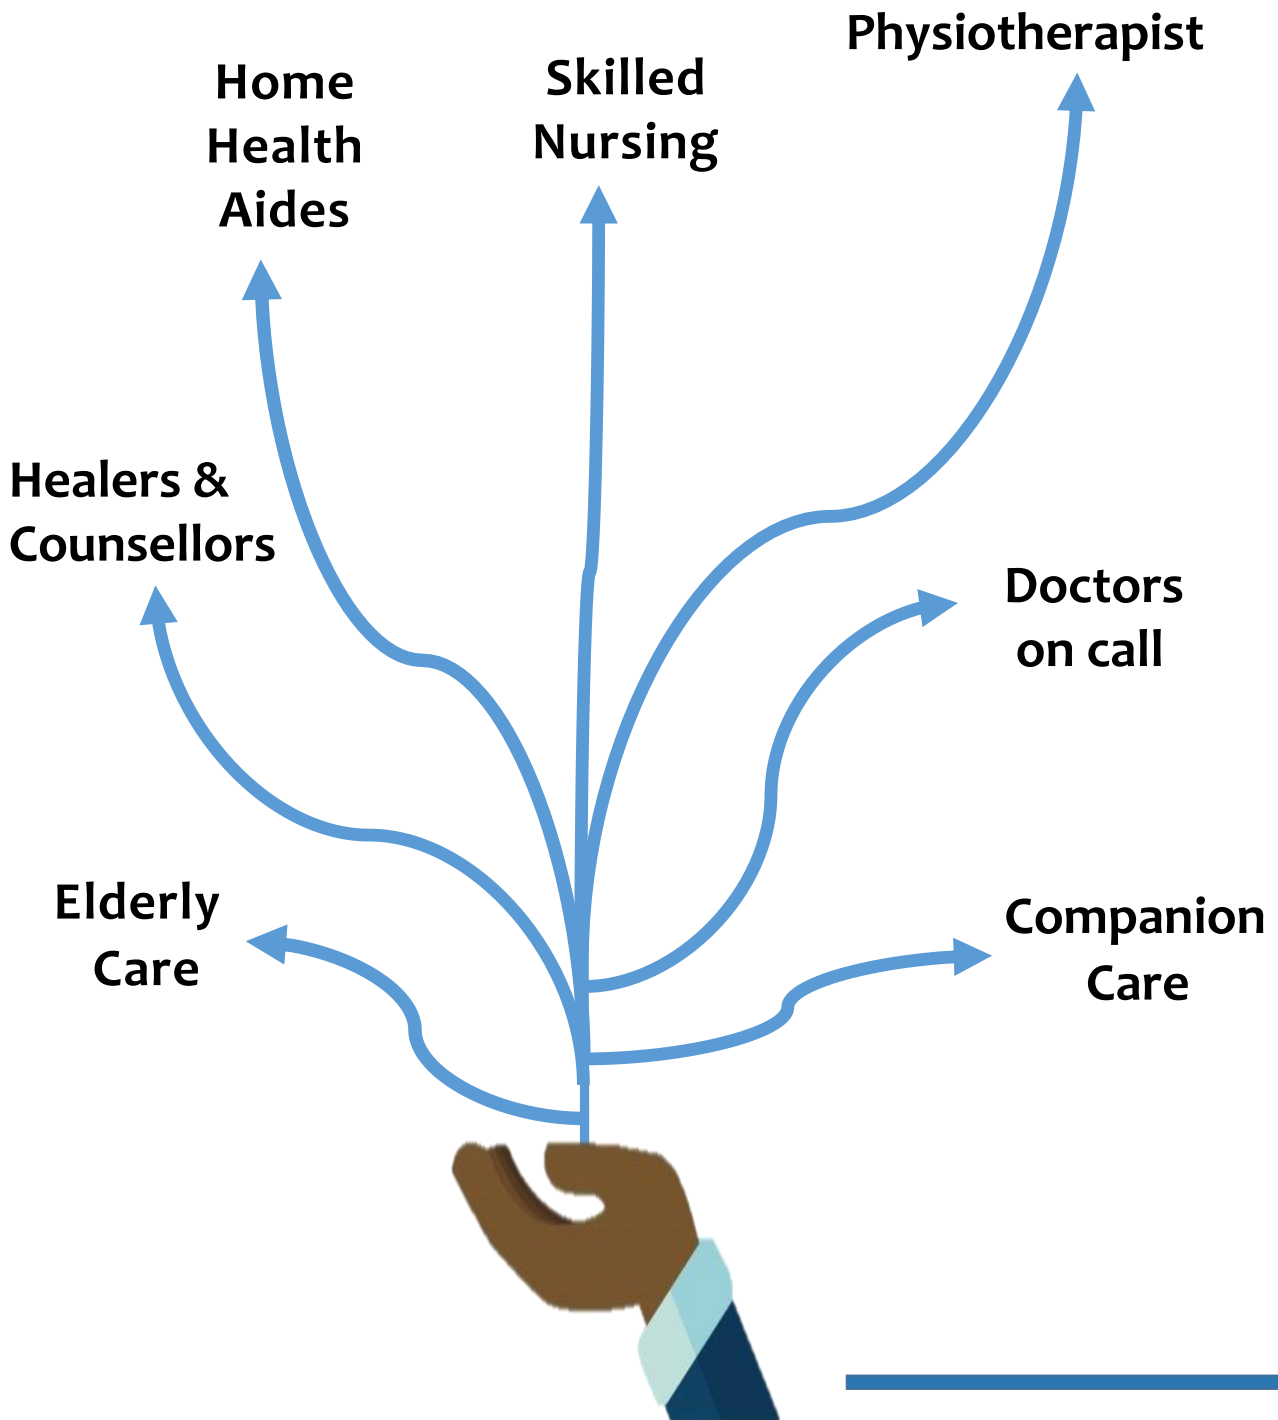

Customers can choose the services, which are available 24*7 through our Mobile Application and Website which is very easy to understand and use. In just a click, you can avail the best in class services choose the ones you need.

ServElder caregiver arrives at home & provides personalized services to the customers, they make sure that customers are comfortable and they get the best experience.

Services

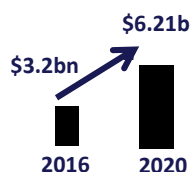

Why choose ServElder for your health care needs?

- Your health and care is the most important aspect of our service.
- With a strong partnership with the Government affiliated Healthcare Skill Development Service Centre, we assure you top notch services with our trained nurses and caregivers.
- All our services are directly overseen by our head physician and registered nurse.
- With every personnel getting advanced training in their respective fields, you can be rest assured of getting the best homeware services in the country.
- We understand that homeware is not a 9-5 job but an emotional connection with the patient who might need help any time of the day. Therefore, we have a 24x7x365 service with an efficient staff ready for any kind of situation.
- Our management makes it a point that they are directly involved in all the processes related to patients, caregivers, physicians, nurses and the supporting staff to maintain the quality of the services at all times.

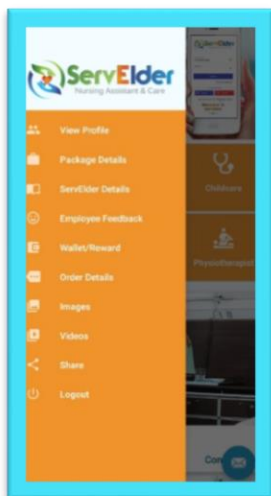

Indian Scenario

The Indian home healthcare market is expected to grow to around **\$4.46 billion by 2018 and \$6.21 billion by 2020**. The adoption of home healthcare solutions in India is still at an early stage. In comparison to countries like US where home healthcare comprises 8.3% of the \$280-billion healthcare industry India falls behind severely comprising merely 2% of the spend. However, the rate of growth in India is much higher, and this is driven by a few key factors.

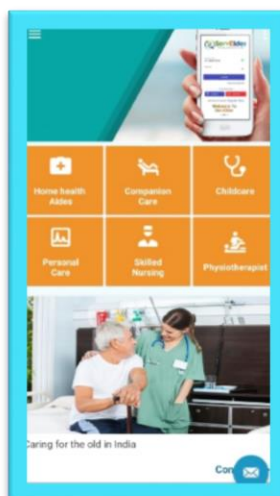

SERVElder MOBILE APPLICATION
